

John Doe

Senior Full Stack Engineer

Email: john.doe@email.com | Phone: (555) 123-4567 | Location: New York, NY

Professional Summary

Result-driven Senior Full Stack Developer with over 8 years of professional experience building highly scalable and resilient web applications. Proven track record of architecture design using Python, FastAPI, and React. Expert in Postgres performance tuning, Docker container deployments, and AWS hosting services.

Core Technical Skills

- | | | |
|--------------|--------------|--------------|
| • Python | • React | • FastAPI |
| • Django | • PostgreSQL | • Docker |
| • AWS | • CI/CD | • JavaScript |
| • TypeScript | • Redis | • Git |

Work Experience

Lead Software Architect at Enterprise Tech Corp (2021 - Present)

- Led a cross-functional team of 12 engineers to design and deploy a microservices transaction platform using FastAPI, Node.js, and Docker.
- Improved API response efficiency by 40% using Redis caching and PostgreSQL query optimization.
- Designed scalable web UIs in React, Tailwind CSS, and Next.js, boosting customer engagement by 25%.
- Architected robust CI/CD pipelines in Jenkins and Gitlab, cutting release deployment durations in half.

Senior Full Stack Engineer at Web Solutions Inc (2018 - 2021)

- Engineered back-end services using Django and Python, handling 5M+ daily requests successfully.
- Built reusable responsive front-end elements in React and Redux, ensuring standard accessibility metrics.
- Migrated local development infrastructure to AWS (ECS, RDS, S3), reducing monthly hosting expenditures by 15%.

Education

Master of Science in Computer Science - Columbia University (Graduated 2018)

Bachelor of Science in Software Engineering - NYU (Graduated 2016)
